ALUMINUM-CLAD EXTERIORS T C

Pella's low-maintenance EnduraClad® exterior finish resists fading, so your windows and patio doors stay looking great for years. Pella's EnduraClad Plus² is also available where a high degree of resistance to fading, chemicals and corrosion is needed. Plus, Pella offers virtually unlimited custom color options for a unique look.

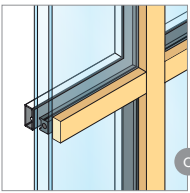

¹ Available on select products on a custom basis.
² EnduraClad Plus protective finish is not available with all colors. See your local Pella sales representative for availability.
³ Only available with matching interior and exterior colors.
⁴ Appearance of exterior grille color may vary depending on the Low-E insulating glass selection.
⁵ Grille patterns and types offered may vary per product. See specific product information for availability.

Our exclusive new selection of window hardware and Baldwin® patio door handle collaborations were designed to add the perfect finishing touch to your Pella® products. Each traditional or contemporary style is available in a diverse palette of striking finishes – allowing for a personal design statement.

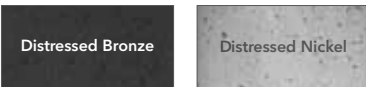

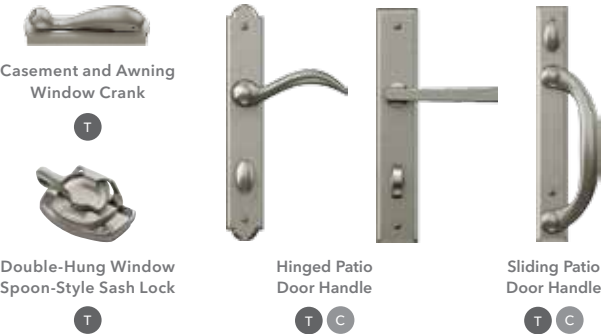

CLASSIC COLLECTION

Choose timeless pieces from the Classic collection – for a look that will never go out of style.

RUSTIC COLLECTION

Stand out with bold looks from the Rustic collection, and create an utterly unique aesthetic.

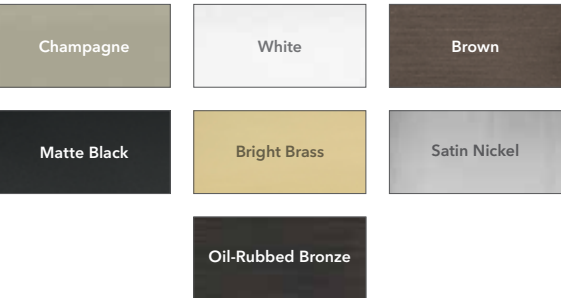

MODERN COLLECTION

Achieve the ultimate contemporary look with the sleek finishes of Modern hardware.

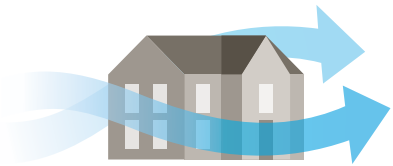

ESSENTIAL COLLECTION

Elevate your style and transform your home with an elegant selection of Essential hardware.

ARCHITECT SERIES HURRICANESHIELD® PRODUCTS T

Pella's impact-resistant glass¹ is designed to help maintain your home's structural integrity. When strong winds enter a home through broken windows, the increased pressure can lift off the roof and push out the structure.

With Pella's impact-resistant glass.

Without impact-resistant glass.

ADDED PROTECTION

For additional window fall protection, our Window Opening Control Device (W OCD) is available with optional factory application². Allowing the window to only open a few inches, the W OCD sits discreetly on the window and is easy to operate.

Window Opening Control Device Open

Window Opening Control Device Closed

T Architect Series Traditional

C Architect Series Contemporary

¹ Pella's impact-resistant glass in HurricaneShield products is made up of a sheet of standard or tempered glass combined with a sheet of laminated glass. For best performance, the laminated glass may be in the interior or exterior pane of insulating glass, depending on the product.

² Factory-applied W OCD may not be available on all products. See your local Pella sales representative for availability.

³ ⚠ WARNING: Screen will not stop child or pet from falling out of window or door. Keep child or pet away from open window or door.

SCREENS³

Improve your view and let in more light and fresh air with your choice of innovative screens from Pella.

Rolscreen® soft-closing retractable screens roll out of sight when not in use. Available on casement windows and sliding patio doors.

InView screens are clearer than conventional fiberglass screens and come standard on Architect Series wood products. Vivid View screens provide the crispest, sharpest view and are optional on Architect Series wood products.
