This is for About us Channel:

About us:

We are a family-owned and operated window installation company based in Georgia. At Unique Windows, we are committed to providing top-quality installation services to our customers, and we take great pride in our workmanship and attention to detail.

Our team of skilled professionals has years of experience in the industry, and we have worked with some of the biggest names in the business, including Home Depot, Lowes, Pella, Renewal By Andersen, and Marvin. Our experience and expertise have allowed us to develop a deep understanding of the industry and a keen eye for quality workmanship.

As a family-owned business, we understand the importance of building strong relationships with our customers. That's why we strive to provide personalized service and attention to every customer, no matter the size or scope of the project. We believe that our customers are more than just clients; they are part of our extended family, and we treat them with the same care and respect that we would want for our own family members.

At Unique Windows, we are committed to using only the highest-quality materials and the latest installation techniques to ensure that your windows are installed correctly and efficiently. We offer a wide range of window styles and materials to suit your needs and preferences, and we are always happy to provide recommendations based on our expertise.

Thank you for choosing Unique Window for your window installation needs. We are proud to be a family-owned business and are dedicated to providing you with the best possible service and experience. We look forward to working with you and helping you achieve the look and functionality you desire for your home or business.

Our Goals:

At Unique Windows , we are committed to making the window installation process as simple and straightforward as possible. That's why we are proud to be the only window installation company to offer instant quotes.

With our instant quote system, you can get an accurate estimate for your window installation project in just a few clicks. Simply visit our website and provide some basic information about your project, including the type of windows you want, the size of the project, and any additional requirements or preferences. Our system will then generate an instant quote based on your specifications, allowing you to make an informed decision about your window installation project.

We understand that getting an accurate quote is essential to planning and budgeting for your project. That's why we have invested in the latest technology to provide instant quotes to our customers. Our system takes into account all the factors that can impact the cost of your project, including materials, labor, and any additional services you may need.

At Unique Windows , we believe that transparency and honesty are essential to building strong relationships with our customers. By offering instant quotes, we aim to provide our customers with the information they need to make informed decisions about their window installation projects. We are committed to providing you with the best possible service and experience, and we believe that our instant quote system is just one way we can achieve that goal.

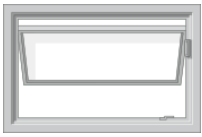

For the instant quote and 3d image you have to understand there is tons of different sizes, shapes, and colors. If that's with trim, or grids or no grids, sliding window, double hung window just understand there is a lot of different types of windows but lets stick with the basis so we could get the ball moving.

For instant quote, make type be first and change it to material. For "material" list the following:

- Wood
- Fiberglass
- Vinyl

Now under "material" have type under it and it will list the following:

We need to keep in mind people are going to need more than one window that's where we need quantity, also we need to keep in mind people will select more than one window.

For size make sure it's after they select Material, Type, and quantity. For size on instant quote make it where customers can put any size. Make it where we ask for Width, Length, and height. From the backend we will change the pricing accordingly. We also need to know what to do when they have to put different sizes for each windows and type/material.
